	Appendix A: Detailed Quality Assurance Assessment Fee Usage Information	

## **I. Introduction and Background**

The 2001 Iowa Acts (HF 740) directed the Iowa Department of Human Services (DHS) to begin reimbursing nursing facilities under a modified price-based case-mix reimbursement system beginning July 1, 2001. The components of the case mix reimbursement system resulted from a series of meetings that involved providers, industry association representatives, advocacy organizations, and state agency staff.

As a condition of IowaCare legislation and negotiations with the Centers for Medicare and Medicaid Services (CMS), Iowa made concession to not enact any new fees charged to health care providers for the purpose of drawing additional federal matching funds. When the waiver for IowaCare was renewed during 2008 this concession was omitted. As such, during the 2009 legislative session, the Iowa General Assembly enacted legislation that would allow for nursing facilities to be charged quality assurance assessment fee pending CMS approval.

As part of the legislation, additional funds of \$10.00 and an amount equal to the provider's fee would be paid to the providers based on their Medicaid resident days. The facilities would be required to pay a fee of \$5.26 for every non-Medicare resident day in the facility, unless certain conditions were met which would allow for a fee of \$1.00 per non-Medicare day.

Based on the mix of Medicaid, Medicare and other payor residents, a facility may receive more Medicaid reimbursement than what is owed. In this occurrence, the law requires that a portion of the additional monies be spent on enriching employees. Thirty five percent (35%) of the excess in what was received over paid is to be used for compensation and costs of employment for certified nursing assistants. Also, a total of sixty percent (60%) of the excess is to be spent on compensation and costs of employment for all nursing facility staff.

## **II. Observations**

Prior year reports reported on fiscal year's ending between August 1 and September 30. For example, the report submitted in February 2015 was for fiscal years ending between August 1, 2013, through September 30, 2014. However, due to changes in submission date requirements, the current reporting periods have changed to be for fiscal year's ending between June 1 and May 31. The information provided is from the most current information that was required to be submitted before this report was due. There may be some overlap of information for this report to the prior one, but going forward data will be comparable between years.

Nursing Facilities were required to send in Form 470-4829 *Nursing Facility Enhanced Medicaid Payment Report*. For fiscal years' ending between June 1, 2014 through May 31, 2015, it was expected that 442 forms would have been submitted, however only 404 (91%) were received. Forms that were not received were requested, during the desk

review process. There are no provisions for enacting penalties against provider's who do not submit the form.

Of the 404 forms that were received, 19 (4.7%) facilities paid more in quality assurance assessment fee than they received, and were exempt from spending any excess. Of the remaining 385 facilities:

- 304 (78.96%) met the criteria to spend thirty five percent (35%) of the excess in what was received over paid in compensation and costs of employment for certified nursing assistants.
- 347 (90.13%) met the criteria to spend sixty percent (60%) of the excess in what was received over paid in compensation and costs of employment for all nursing facility staff.

The summary below summarizes how facilities spent the excess funds. Nursing homes spent their excess funds in various ways. *Appendix A* details, by provider, the calculation of the amount of quality assurance fees paid and received, and how the provider reported the excess funds were spent.
